

PRESS RELEASE

Productive, Flexible Electronic Pipettor...

INTEGRA has announced the introduction of the **6 channel Voyager electronic adjustable spacing pipettor**.

Designed for laboratories looking for a productive and flexible electronic pipettor - the new six channel Voyager™ features a revolutionary mechanism that alters tip spacing at the press of a button. The 6 channel Voyager incorporates a small motor that moves the center-to-center tip spacing quickly and smoothly at any point in a protocol, all with one hand. Users can preset up to three distinct tip spacing's enabling one 6 channel Voyager to accommodate most labware vessels. The 6 channel tip spacing for both models can be adjusted from 9.0mm to 19.5mm.

All Voyager pipettors share the same easy-to-use Touch Wheel™ controller from the award winning Viaflo pipettors series with intuitive programming and the industry's first full-color display. Also, all Voyager pipettors are designed to utilize Viaflo Griptips. As a result, individuals can pipette without ever having a tip loosen and leak or fall off. Two six channel Voyager models are now available, in volume ranges of 10-300µl and 50-1250µl. This unique product makes quick work with 24 well plates, 48 well plates and many additional labware formats.

INTEGRA is a leading provider of high-quality laboratory tools for liquid handling, media preparation, sterilization and cell cultivation. We are committed to creating innovative solutions which fulfill the needs of our customers in research, diagnostics and quality control within the life science markets and medical industry. INTEGRA, comprising INTEGRA Biosciences AG and the Viaflo Corporation, maintains a worldwide network of over 90 independent highly trained distribution partners. INTEGRA Biosciences AG is headquartered in Zizers, Switzerland; Viaflo Corporation is located in Hudson, NH, USA.

For further information on the productivity gains achievable with Voyager please contact INTEGRA Biosciences AG on telephone +41-81-286-9530 or by email info@integra-biosciences.com. In the USA please contact Viaflo Corporation on telephone +1-603-578-5800 or by email loneil@viaflo.com.
