

MINI 96

CHECK OUT THIS UNBELIEVABLE PRODUCT
AT AN UNBELIEVABLE PRICE! \$9,995

The INTEGRA MINI 96 is the world's most affordable
and portable 96 channel pipette!

12.5 µl 125 µl 300 µl 1250 µl

An affordable and portable 96 channel electronic pipette
that fits any budget and workspace, and is ready to use
straight out of the box.

The MINI 96 is the solution for laboratories that want to fill 96 and 384 well plates faster and more precisely than is possible using traditional handheld pipettes while keeping under budget. As the world's most affordable 96 channel option, it enables simultaneous whole plate pipetting – as well as partial plate filling – to ensure that your lab's productivity skyrockets compared to 8 and 12 channel pipettes.

Its tiny size and portability allow the instrument to be easily moved for use anywhere in the lab, from the LAFC to small work spaces on any lab bench. The MINI 96 is also easy to use – simply turn it on and start pipetting.

INTEGRA'S MINI 96 is the most affordable and portable 96 channel pipette - making your pipetting much faster and more reproducible vs. a traditional 1-16 channel pipette.

Access to more productivity for every lab, every work space, and every budget.
